HELLENIC MOTORS

Save on high freight costs with our extensive global network

Valiadis SA serves the shipping industry through a global network of partners across the leading ports of **all 5 continents**.

Send your inquiry to our marine department by specifying your desired port and ETA. Our team will arrange for **direct delivery to your local agent**.

Ask our service team for onboard maintenance or rewinding

Valiadis SA has a specialized team, based in Athens, ready to travel **anytime, anywhere** and take care of your generator or motor problems.

From a simple maintenance to a complicated rewinding project.

# OFFSHORE SOLUTIONS ONBOARD ENGINEERING

## Benefit from our motors stock

We stock brand new, type approved motors from 0.12kW up to 500kW.

Our engineers can design **any special motor** which will be manufactured in our modification center in Athens. This way, **we can serve all special demands** of the shipping industry and replace almost any motor **onboard**.

## Winch motors in stock

Double or Triple speed, with brake of 110V or 440V, marine type, winch duty ready of the shelf to be installed on deck with high protection IP65.

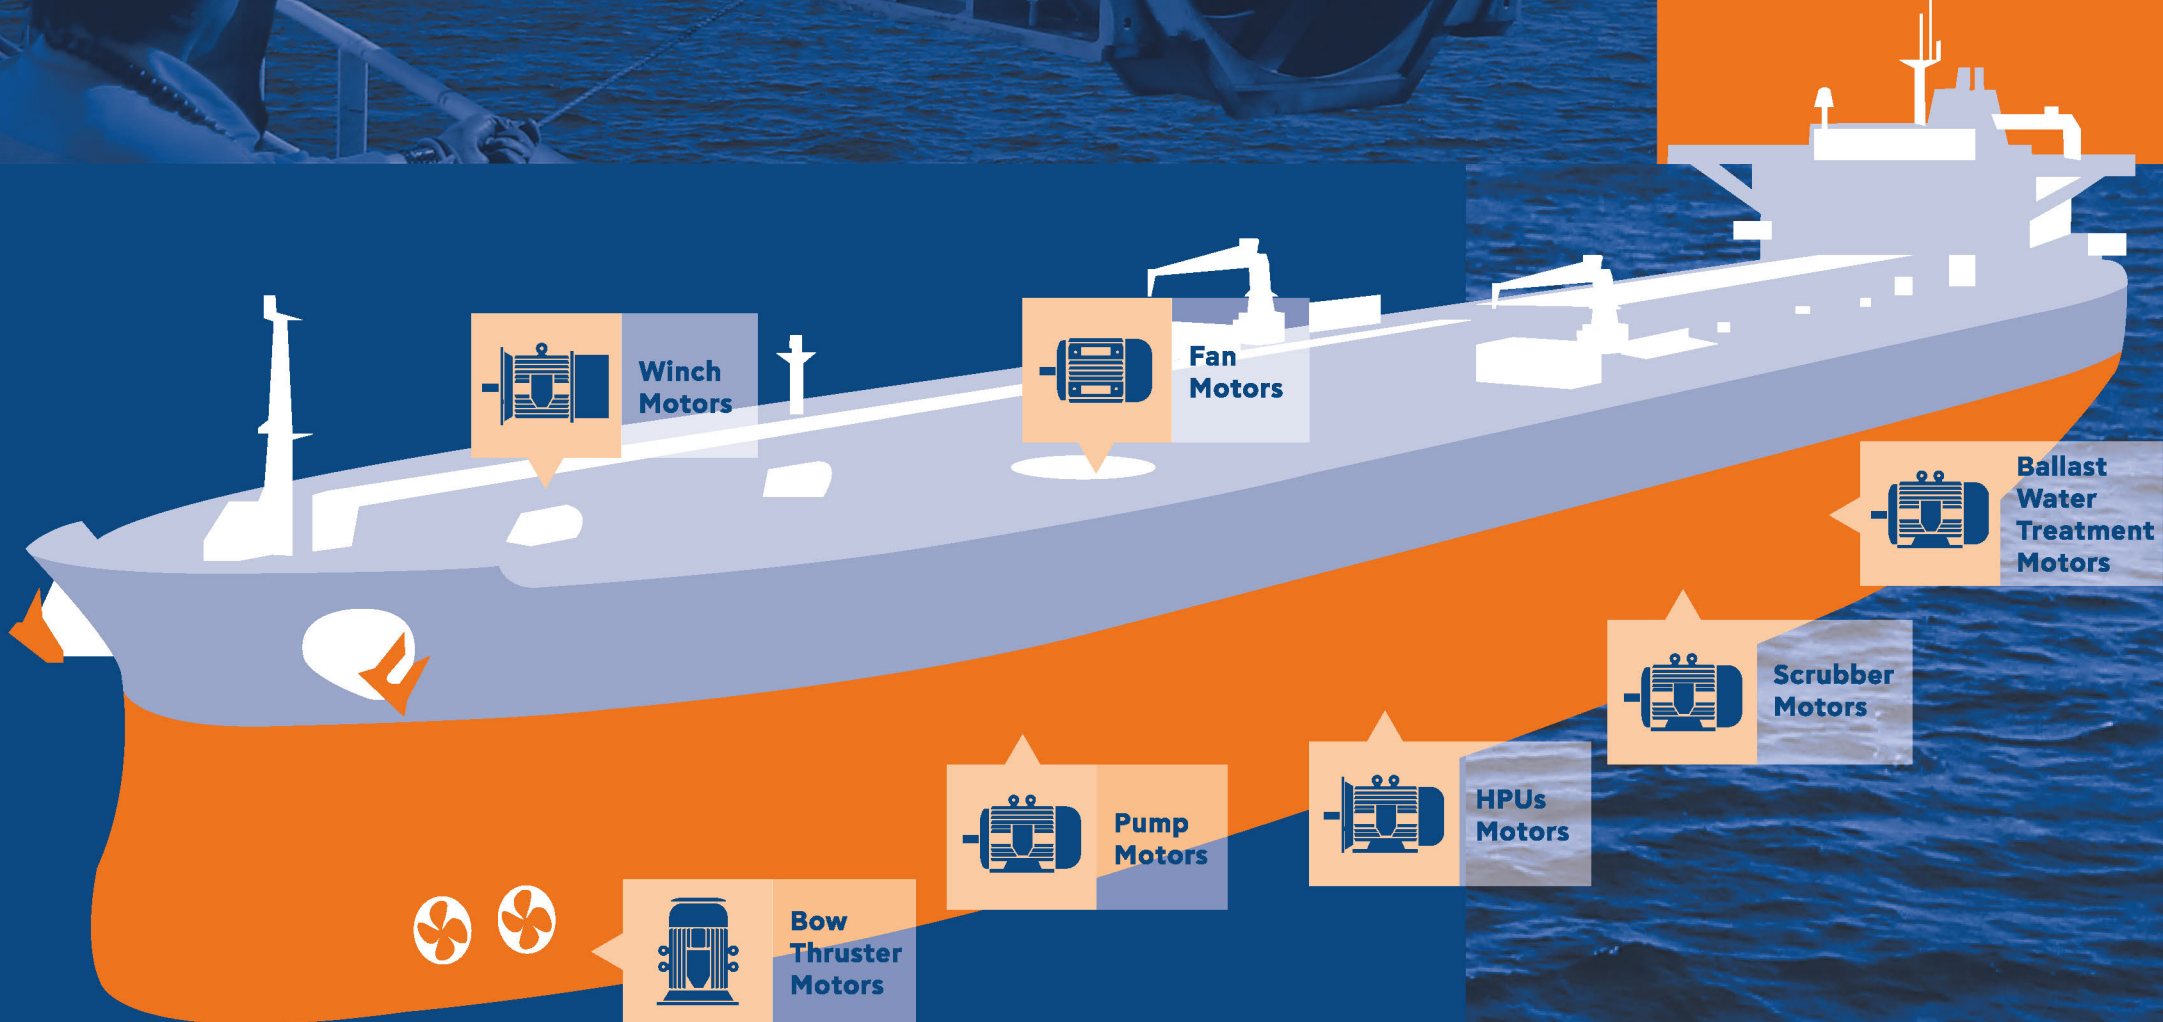

High starting torque design, inox screws, SKF bearings, PTC thermistors, Space Heaters

## Certifications

Our company is ISO9001 & ISO14001 certified

Our standard motors are type approved

We have our own test bench and we accept all major classes for type-testing special motors, tailored for specific applications.
